ABOUT ME

Informatics Engineering student at Dian Nusantara University with a GPA of 3.88 who is looking for an internship in the IT field. During college, I joined an off-campus organization as Head Leader Multimedia at Abbalove Youth KBC which is responsible for managing the team. This made me an organized and neat person.

EXPERIENCE

- **April 2024 - Present**

  Full Stack Developer Intern: TransTRACK

  I work as a full-stack developer, creating monitoring & publishing tools specifically for the marketing division, connected to social media such as Instagram, Facebook, and Linkedin. My role includes designing monitoring & publishing tools, developing server-side logic, managing databases, writing efficiently, and ensuring successful project deployment. I am constantly learning to know my way around this web application, using Laravel Framework as the backend, Tailwind Ui Design as the frontend, and MySQL as the database to manage the database.

- **February 2024 - March 2024**

  Project-Based Virtual Intern : Fullstack Developer BTPN Syariah x Rakamin Academy

  I work as a full-stack developer, responsible for creating and maintaining web applications. My role involves designing Restful APIs, developing server-side logic, managing databases, writing efficiently, and ensuring successful project deployment. I am constantly learning to know my way around this web application, using Golang Language as the backend, and MySQl as the database to manage the database.

PROJECT

TrackMyShipment, Backend Developer | Desember 2023

Website link: https://trackmyshipment.up.railway.app/

- Technology used: HTML, CSS (Bootstrap), Javascript, and Laravel as PHP Framework.
- Develop a web application that allows users to send packages/goods to the destination in realtime.
- Allows users to track packages, check shipping costs, and TrackMyShipment e-wallet features.
